

U.S.SAWS™

U.S.SAWS Ultra Vac 950

U.S.SAWS Ultra-Vac 950 is a powerful and compact dust collection system. The industrial vacuum is a lightweight, durable, sturdy, and job site ready system. The compact size makes it perfect for use on a swing stage and jobs that require going up and down the stairs. This dust collection vacuum contains a single, 120V high-efficiency turbine motor, 9.5-gallon dust bin, 25' 2" hose, and one HEPA filter for maximum dust collection. This system is OSHA certified following table 1 regulations.

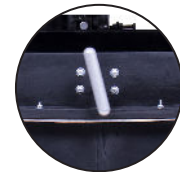

175 CFM Dust Port

Polyethylene Body

Durable Wheels

Filter Shaker

Features:
