

U.S.SAWS™

U.S.SAWS 5" Crack Chaser Assembly

U.S.SAWS Tuckpointer – Crack Chaser Assembly is a light-weight and small system for both horizontal and vertical surface crack repair cutting and applications. The Crack Chaser is a handheld saw designed for routing out random cracks or cutting concrete while collecting the dust.

The premium 5" crack chaser is powered by a 5" Metabo grinder WE15-125 and the standard model is equipped with Metabo W9-115 Electric Grinder. Excellent for cutting out mortar or grout joints. These are an easy way to upgrade your existing tool for dust control.

Features:

- Small and light-weight system for horizontal or vertical surface crack repair applications and cutting out mortar or grout joints
- When used with a vacuum system, controls dust for cleaner work area
- 1-1/4" maximum cutting depth
- Uses dry diamond blades
- Standard and Premium models offered
- Assembly includes a grinder, shroud, and adapter ring
