## CORE PRO HD-16 CORE DRILL WITH STAND

The Core Pro HD-16 hand-held core drill is a powerful, fast, and precise solution for drilling large holes in concrete and a variety of other tough materials. Engineered for heavy-duty performance, the Core Pro HD-16 is capable of coring holes up to an impressive 16" in diameter, making it an ideal choice for demanding applications. Whether you're working with concrete, brick, stone, or other masonry materials, this high-performance drill delivers consistent, accurate results with speed and efficiency. Designed for professionals who need reliability and durability on the job site, the Core Pro HD-16 offers both versatility and power in a compact, user-friendly form.

### Features:

- Lightweight and portable design allows for easy transport and operation, even in tight or elevated workspaces
- Built-in mechanical clutch provides added protection for both the motor and operator in case of bit binding or resistance
- Delivers constant power with smooth, step-less speed control for optimal performance across various materials
- Integrated safety clutch and overload protection help reduce the risk of kickback and equipment damage under heavy load
- Capable of drilling holes up to 16" in diameter

### CORE PRO HD-16 TRADITIONAL CORE DRILL W/ VERTICAL STAND

Capacity	up to 16"
Electrical Requirements	110 V
Cord Length	12'
RPM	260/390/530
Package Size	29" x 9" x 16"
Weight	75 lbs
Part Number	US28612
